Art Unit: 3753

This action is responsive to the communication filed March 8, 2004.

Newly amended/submitted claims 1-35 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: all the claims now recite a mixing slot for atomizing the liquid, or an atomizer.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-35 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

It is noted that claims 27-28 were treated on the merits because the atomizer and vaporizer were recited nominally, without structural limitations. The current claims are distinct due to the structural features now recited.

The amendment filed on March 8, 2004 presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they recite a mixing slot for atomizing the liquid.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
